

PRODUCT DATA SHEET

Leno Scaffolding Cover

UV stabilized, 4 webbing band(14+7+7+14cm).

| <i>Parameters</i> | <i>Characteristics</i> |
|-------------------------------|---------------------------------------|
| Weight of unitary area | 180 g / m ² (± 5 %) |
| Membrane's thickness | 0,15 mm |
| Length/ width/ amount in roll | 4m / 36m / 180 m ² (± 5 %) |
| Reinforcement | 12 x 12 mm reinforced mesh |
| Permeability of light | 80 % |
| Work temperature | -40°C +70°C |
| Resistance to UV rays | Yes |

| | |
|--------------------------|---|
| Color | Transparent |
| Resistance to stretching | > 7 kN/m |
| Tearing strength of pore | 365 N |
| Resistance to tearing | 221 N |
| Installation | The installation is possible in horizontal and vertical directions. The fastening strips are along the membrane. The fastening points of membrane are prepared every 100 mm on these strips |
